

# Beware !!!

## ILLEGAL PLAYERS!!!

We need your help. Last season GEVA experienced a few incidents with teams using illegal players. This is not fair to the GEVA members complying with the rules. Please report any illegal players to your board member, Tournament Director or Referee. The following sanctions will be applied to an illegal player situation:

### **Situation #1: Unregistered Player**

Sanction – All games prior to confirmation of the illegal player will be thrown out. Player must re-register with GEVA on the spot to continue playing in the GEVA tournament. After the tournament is over the Player and Team Representative will be suspended for one month.

### **Situation #2: Player is registered on a different team or in a different region**

#### **Player signs Registration form:**

Sanction – All games prior to confirmation of the illegal player will be thrown out. Player must re-register with GEVA on the spot to continue playing in the GEVA tournament. After the tournament is over the Player and Team Representative will be suspended for one month.

#### **Player does not sign Registration form:**

If player does not sign the registration form, the same sanction applies above, however, the Player and Team Representative will be suspended for two months.

### **Situation #3: Unregistered Player but signs in under another name**

Sanction – All games prior to confirmation of the illegal player will be thrown out. Player must re-register with GEVA on the spot to continue playing in the GEVA tournament. After the tournament is over the Player and Team Representative will be suspended for two month.

Lastly, since it is not fair to the other GEVA teams in the tournament who expected to have some volleyball playing time, it will be required for the sanction team to finish playing in the tournament. If the entire team decides to leave and not finish out the tournament, the entire team will receive a one month suspension.

If you have any questions regarding this issue please contact your GEVA board.
